To: The Parents of Sigma Chi's at Fresno State
Re: COVID-19 Update

Dear Parents,

Since the beginning of the COVID-19 pandemic earlier this year, the Sigma Chi Housing Corporation, in conjunction with the Sigma Chi Alumni Chapter of Fresno, met to discuss plans for managing the safety and wellbeing of our brothers living in the chapter house. We are pleased to have developed an outline on how to manage the Sigma Chi chapter house during this pandemic. We've included the full outline for prevention and management of any potential outbreaks on the following pages. In summary, we have implemented the following guidelines at the chapter house:

- Sanitation of surfaces, door knobs, bathrooms and other frequently touched areas at a minimum of five days per week
- Supply of hand sanitizer and cleaning supplies
- Serving of meals in disposable containers
- Encouraging social distancing and the following of local, state and federal orders
- Prohibiting large gatherings at the chapter house

Additionally, we are very pleased to announce that the Sigma Chi Alumni Chapter of Fresno has raised nearly \$5,000 to provide weekend takeout dinner meals to the live in brothers. We understand the financial hardships many of our young brothers are experiencing at this time and we hope this will help offset some of that burden. Myself and our alumni stand alongside the outstanding young men you have raised and we will continue making it our purpose to provide these young men with a safe and comfortable living environment. Our primary focus will continue to be the health and safety of our brothers. If you have any concerns at all, don't hesitate to reach me by phone or email. My information is below.

Sincerely,

Dusty Lacefield
